Recommendation for Council Action (Purchasing)

Austin City Council

Item ID:

6881

Agenda Number

58.

Meeting Date:

May 26, 2011

Department:

Purchasing

Subject

Authorize award and execution of a 60-month requirements service contract with EMERSON NETWORK POWER, LEIBERT SERVICES, INC., Westerville, OH for maintenance and replacement parts for ABIA's baggage handling and security systems, in an estimated amount not to exceed \$107,106 with five 12-month extension options in estimated amounts not to exceed \$23,380 for the first extension option, \$24,149 for the second extension option, \$24,957 for the third extension option, \$25,805 for the fourth extension option, and \$26,695 for the fifth extension option for a total estimated contract amount not to exceed \$232,092. Emerson Network Power, Leibert Services, Inc. is the sole source provided for these services and products.

Amount and Source of Funding

Funding in the amount of \$5,505 is available in the Fiscal Year 2010-2011 Operating Budget of the Aviation Department. Funding for the remaining fifty-five months of the initial contract and extension options is contingent on available funding in future budgets.

Fiscal Note

There is no unanticipated fiscal impact. A fiscal note is not required.

Additional Backup Information

This agreement will provide an "Essential Service" Emergency and preventative maintenance services including parts for three Leibert manufactured Uninterruptable Power Source (UPS) systems for the ABIA terminal Baggage Handling system and campus wide security system.

ABIA's Baggage Handling and Security Systems currently have a Leibert UPS Emergency Backup System that provides temporary power during a power outage switchover from normal power to emergency generator backup power. These UPS systems were installed and have been maintained by Emerson, who is the sole provider of factory authorized service and maintenance on these critical systems. ABIA is requesting to procure the services of the factory trained and certified technicians to maintain the UPS systems to ensure our security and baggage handling systems are operating at all times and that the backup systems are functioning when needed especially during power outages and inclement weather.

This maintenance, service and parts support is essential to the operation of our security and baggage handling systems. Without this level of support we will not be able to meet the federally mandated regulations and ensure that our facilities security and baggage handling systems are functioning at all times.
